Share Your Wins

We want to highlight your wins from CCAM! Throughout the month, e-mail your wins to nrtcc@cancer.org so they can be highlighted in our next e-news.

Welcome to the team, Kiara!

Kiara joins the National Roundtable on Cervical Cancer with years of program management experience. Since August 2022, Kiara has worked with the American Cancer Society as an Associate Director of Cancer Center Partnerships. Within this role, she was responsible for the management of over 15 South Carolina and Western North Carolina hospital systems through convening, implementing evidence-based strategies, sharing resources cultivating health care champions and driving system policies and practices. In 2023, Kiara was selected for the inaugural cohort of the National HPV Vaccination Roundtable's Emerging Leaders Fellowship Program.

In her new role, Kiara will manage roundtable membership, assist with tracking and reporting, lead communications content development, and assist with the planning and execution of roundtable meetings and events for both the ACS NRTCC and the ACS HPVRT roundtables.

Kiara holds her MPH from East Tennessee State University in Community and Behavioral Health and is a Certified Health Education Specialist (CHES).

Thank you, Jane Gerndt!

We are thankful for your hard work with the Primary HPV Screening Initiative, and for helping to stand up the ACS NRTCC. We wish you luck in your new position as the program manager for Screening.

New from ACS: Training and Credentialing for Patient Navigators

The American Cancer Society is excited to announce the launch of Leadership in Oncology Navigation (ACS LION™), a standardized training and credentialing program for patient navigators who deliver essential non-clinical support.

Available January 1, 2024, ACS LION meets the Centers for Medicare & Medicaid Services (CMS) training requirements for "Principal Illness Navigation" reimbursement, as introduced in the 2024 CMS Physician Fee Schedule, and is aligned to professional oncology navigation (PONT) standards.

Priced at \$495 per learner, this program is completed online and is self-paced. Grants for learners are available. Details about the program and course modules will be available on January 1 at cancer.org/navigationcredential.

In addition to training and credentialing, ACS, in collaboration with the ACS National Navigation Roundtable, will continue to serve as a national convener of stakeholders interested in the implementation, evaluation, and sustainability of patient navigation. We'll offer a variety of resources to help oncology providers build effective and efficient professional navigation services.

Early in 2024, we will host the first in a series of live and recorded webinars to provide focused, practical guidance to oncology teams interested in enhancing and billing for professional navigation services.

Webinar dates:

- Available January 4: CMS Principal Illness Navigation Documentation & Billing Primer (recorded webinar)
- January 12, 12:00 to 1:00 p.m. ET: ACS Leadership in Oncology Navigation (live session, featuring Drs. Arif Kamal and Shanthy Sivendran)
- January 23, 12:30 to 1:30 p.m. ET: ACS Leadership in Oncology Navigation (live session, featuring Drs. Arif Kamal and Shanthy Sivendran)

Access or register at acslion.windrosemedia.com.

Questions? Please contact us at ACSLION@cancer.org.

2023 was a great year for the ACS NRTCC, from completing our stakeholder research to developing workgroups and implementing our strategic plan based on identified priorities. Thank you for making these wins possible. We encourage you to share them with your organization's leadership.

Membership

- Onboarded 55 member organizations
 - 15 clinician based
 - 10 advocacy & survivorship
 - 16 payors, lab & industry
 - 11 research & education
 - 3 government
- Engaged 26 volunteers in leadership positions
- Established 6 workgroups

Deliverables

- Achieved 100% of our 2023 health equity goals
- Launched ACS NRTCC Resource Center, resulting in 9,826 lives touched
- Hosted the inaugural national meeting in collaboration with ACS HPV Roundtable
- Primary HPV Screening Initiative created 20 resources, including 3 published articles.

Establishing National Presence

- Provided 8 virtual presentations with partners and local organizations
- Displayed two posters at 2023 International Papillomavirus Conference
- Highlighted partner at national self-collection meeting with Dr. Jesper Bonde
- Presented at American Society Colposcopies and Cervical Pathology (ASCCP) Meeting
- Attended American Society of Clinical Oncology (ASCO) Annual Meeting
- Attended International Stigma Conference
